

Thank you for the package and all the nice things inside. Thank you for the bible mine was destroyed from being over here as im sure your aware the weathers not a forgiving as it is back in the states and it was a very nice suprise to find among the Candy Shirts and socks with were also needed by me and the other soilders I serve with. its nice to know that during this holiday season away from home that there a people back home that keep us in mind. its hard being away from our friends and family during a holiday such as this that is ment to be spent with loved ones. but knowing that there are people back in the states that keep us in mind helps out alot and allows us to keep on doing our job knowing that we are protecting such people and allowing them to continue on celebrating this holiday with there loved ones in safety and honestly thats all we want to accomplish here is to ensure the safety of all those back in the states to live there lives even at the cost of ours. Happy Holidays and thank you again.
